

Phenology The Science of the Seasons

Calling All Citizen Scientists!

Hikers!

Families!

School Groups!

Do you enjoy watching plants change through the seasons?

Would you like to help researchers study the effects of climate change on our natural environments? We are gathering data on when native plants leaf out, flower, form fruit, and other seasonal changes.

Volunteers welcome!

- No experience necessary
- Learn more about the natural environment
- Appropriate for families as well as seasoned scientists
- Choose where, when and how often you monitor plants
- Monitor plants when you come to the park to hike or set up a site in your own backyard

Monitoring sites are currently set up at:

- Almaden Quicksilver Park in South San Jose
- SF Bay National Wildlife Refuge in Alviso
- Windy Hill in Portola Valley

Come learn more at one of these presentations:

Saturday, February 2, 2013 1:30 PM - 3:00 PM

Don Edwards San Francisco Bay National Wildlife Refuge
Environmental Education Center
1751 Grand Blvd., Alviso

To register, call 408-262-5513 x102

or email watershedwatchers@sfbws.com

Sunday, February 24, 2013 1:30 PM - 3:00 PM

Almaden Quicksilver Mining Museum (Casa Grande)
21350 Almaden Road, San Jose 95120

To register, call 408-918-7774 or email SVphenology@gmail.com
